**Streamlined value
and performance.**

Cost-effective and highly productive.

It's time to get the all-in-one office system you want—copy, print and scan—with the affordability you have been looking for. The Savin 9016s/9021ds packs network connectivity, quick output speeds and crisp resolution into a small footprint, making it ideally suited to Windows-based environments, such as small businesses, workgroups and offices that require a budget-friendly package.

Copy, Print, Scan.

Streamline your office with the convenience of an all-in-one system that is essential to running a business in today's competitive marketplace.

- Output high-quality documents whether copied, printed or scanned at 600 dpi resolution.
- Print documents created on most common business applications. Standard PCL5e/6 means you won't need additional software or upgrades to quickly get up and running.
- Conveniently and cost-effectively share and archive documents using advanced TWAIN Scanning. You will also save space and money by not having to invest in an extra desktop scanner.
- Scan and copy larger documents—saving outsourcing fees—using the standard ledger-sized 11" x 17" platen.

Speed up everyone's day.

The Savin 9016s/9021ds boosts productivity by streamlining common tasks and minimizing needless interruptions and delays that can slow down everyone's workday.

- Boost production by outputting 16 or 21 pages per minute.
- Run job after job without interruption with a generous maximum paper capacity of up to 1,600 sheets.
- Save time, paper and filing space with stackless duplexing on the Savin 9021ds, allowing you to conveniently copy or print two-sided documents.
- Enjoy virtually hands-free production by adding either an optional 30-sheet Automatic Document Feeder to the Savin 9016s or Savin 9021ds, or a 50-sheet Automatic Reversing Document Feeder to the Savin 9021ds, which processes two-sided documents automatically.
- Quickly complete any task with the user-friendly control panel that comes standard with a 4-line LCD display and intuitive controls.
- Easily refill paper trays, whether standing or sitting, using the optional Accessibility Handles.

Connect the way you want.

- Easily connect directly to standalone PCs and laptops with the standard USB 2.0 Interface.
- Network your Savin 9016s/9021ds with multiple users with the standard 10BaseT/100BaseTX Ethernet Interface.
